Corona work/life survey highlights, June 12, 2020

Young workers report more job loss

Drama in Gulf region, Maghreb, Southern Africa and Central America

Regions with small numbers of corona-deaths, show the biggest job losses. This is an unexpectedly contradictory pattern emerging from the continuous online corona-survey fielded by WageIndicator on March 23 and daily updated, as the number of respondents steadily grows.

On June 10, after 10 weeks of continuous data collection, the figures for 4 regional clusters are as follows (the corona death toll is the latest WHO-data).

**Gulf states and Middle East**
- Saoudi Arabia: 36% reported job loss, number of corona deaths 611
- UAE: 45% job loss, 273 deaths
- Qatar: 47% job loss, 45 deaths
- Iraq: 21% job loss, 271 deaths
- Lebanon: 41% job loss, 28 deaths
- Jordan: 41% job loss, 9 deaths

**Maghreb**
- Egypt: 32% job loss, 1126 corona deaths
- Tunisia: 27% job loss, 49 corona deaths
- Algeria: 30% job loss, 681 corona deaths
- Morocco: 44% job loss, 208 corona deaths

**Southern Africa**
- South Africa: 18% job loss, 848 corona deaths
- Madagascar: 22% job loss, 7 corona deaths
- Zambia: 18% job loss, 7 corona deaths
- Zimbabwe: 12% job loss, 4 corona deaths

**Central America**
- Costa Rica: 29 job loss, 10 corona deaths
- Honduras: 49% job loss, 234 corona deaths
- Guatemala: 37% job loss, 140 corona deaths
- El Salvador: 42% job loss, 52 corona deaths
- Nicaragua: 23% job loss, 46 corona deaths

**Quote of the day, filmmaker, man, 43, SouthAfrica**

*My company relies on the film industry. We will most likely have to remain closed for many months. We have many employees who are unable to work. Things are very uncertain and I am concerned about finances and health for not only myself, but our staff, clients and all vulnerable people in this country.*
What will the new work/life ‘normal’ become?

The Work Life Survey in Corona Times shows the impact people from across the globe expect the corona crisis will have on their working life. Regularly special issues like countries, continents, occupations, happiness, fear, small hous or having a dog are highlighted on these pages.

Its global outreach allows WageIndicator to present findings for many countries. Daily updated national survey results may be consulted here: https://wageindicator.org/salary/living-and-working-in-times-of-the-coronavirus/work-life-in-corona-times-graphs

It is the intention to continue the survey for a long time, well into the aftermath of the present crisis. What will the new work/life ‘normal’ become?

More about the project
The Coronavirus Effect on Work, Life and Feelings

How is your work affected by the Coronavirus?

(More than one answer per respondent)

How is your mood in Coronavirus times affected by having a bigger house?

The Coronavirus Effect on Work, Life and Feelings

55% doesn't stay at home

Those who stay at home, live ...

45% stays at home because of Coronavirus measures

with 2.8 other people on average

25.9% with at least one dog

in a house with 2.8 rooms on average (bathrooms excluded)

The percentages above show average data for all the countries. Once a continent/region/country is selected, then data from that continent/region/country is shown.

FEELINGS

How is our mood in Coronavirus times affected by having a bigger house?

Continent | One room | Two-three rooms | More than three rooms |
---|---|---|---|
Africa | ![Depression Level](image1) | ![Depression Level](image2) | ![Depression Level](image3) |
Asia | ![Depression Level](image4) | ![Depression Level](image5) | ![Depression Level](image6) |
Europe | ![Depression Level](image7) | ![Depression Level](image8) | ![Depression Level](image9) |
North America | ![Depression Level](image10) | ![Depression Level](image11) | ![Depression Level](image12) |

Each dot is a country, the level of depression goes from 1 to 5, where 1 (dark blue) is not depressed at all and more than 3 (from gray to dark orange) means that some depression has been reported.
