Introduction

The Labour Rights Index 2022 (LRI 2022) is a de-jure index covering 135 economies and structured around the working lifespan of a worker. In total, 46 questions or evaluation criteria are scored across 10 indicators. The overall score is calculated by taking the average of each indicator, with 100 being the highest possible score. The Index uses a rating system, ranging from "Total Lack of Decent Work" to "Decent Work". The Labour Rights Index aims at an active contribution to the Sustainable Development Goals, by providing necessary (complementary) insights into de jure provisions on issues covered in particular by SDG8 (Decent Jobs), SDG 5 (Gender Equality), SDG 10 (Reduced Inequalities) and SDG 16 (Strong Institutions). The Index is based on national labour legislation, applicable on 1 January 2022. The Index does not take into account COVID-19 related labour market measures in its scoring.

Mali's overall score is 56.5 out of 100. The overall score for Malawi is lower than the regional average observed across Sub-Saharan Africa (64.4). Within the Sub-Saharan Africa region, the highest score is observed for Guinea (80.5).

¹ Proportion of population living below the national poverty line (%), as measured under SDG 1.2.1

² Share of informal employment in total employment (%), as measured under SDG 8.3.1

³ Proportion of the country population covered by social protection floors, as measured under SDG 1.3.1

⁴ Labour income (income of employees + partly income of the self-employed) as a percentage of GDP, as measured under SDG 10.4.1

⁵ The female labour force is shown in absolute number along with the female labour force participation rate

⁶ Non-Standard Employment has been defined as Part-Time Employment (A) and Temporary Employment (B)

⁷ Rate of fatal and non-fatal injuries per 100,000 workers, as measured under SDG 8.8.1

The country rating is based on the overall score of 0-100, with the following coding:

(90.5-100) Decent Work | (80.5-90) Approaching Decent Work | (70.5-80) Reasonable Access to Decent Work | (60.5-70) Limited Access to Decent Work | (50.5-60) Basic Access to Decent Work | (0-50) Total Lack of Decent Work

⁹ The Index has 10 indicators and 46 evaluation criteria or questions.

¹⁰ The prohibited grounds for discrimination are "race, colour, sex, religion, political opinion, national extraction or social origin, age, disability and trade union membership". A score of 1 is assigned only if a country has prohibited discrimination on at least 7 of the above 10 grounds.

¹¹ A country's score on LRI's Trade Union indicator must also be read together SDG indicator 8.8.2 which measures the level of national compliance with labour rights (freedom of association and collective bargaining) based on ILO textual sources and national legislation. It has a range from 0 to 10, with 0 being the best possible score (indicating higher levels of compliance with FACB rights) and 10 the worst (indicating lower levels of compliance with FACB rights). The score of Mali on SDG 8.8.2 is 0.88 (2020)

The Index uses Observations/Direct Requests from ILO CEACR and the US Department of State's Country Reports on Human Rights Practices (US DOS CRHRP) to measure a country's compliance on the Trade Union indicator.

¹² In order to measure the trend in country's legislative performance over the last edition of the Labour Rights Index (2020), the legislative table indicates improvement or worsening of labour rights in country through the following colours.

- Score increase
- Score decrease
- Score adjustment
- No change
